SUBJECT:

Congressionally Directed Actions from Senate Select
Committee on Intelligence Classified Annex

REFERENCE:

SSCI Report on FY 1984 NFIP Budget, BYE 2948-83,
dated 12 May 1983

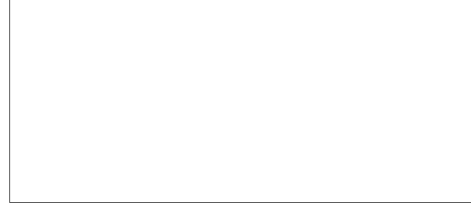

1. The Senate Select Committee on Intelligence (SSCI) in its classified report on the FY 1984 budget, included a number of requests for actions to be undertaken by Community elements in response to specific congressional concerns. One request, identified on page 17 of the referenced report, involves reprogramming. It is requested that your staff ensure that the following instructions are provided to all program managers as soon as possible. The following types of action constitute reprogramming which requires prior Committee approval:

- Irrespective of DoD appropriation or program element totals, any proposed action which exceeds the standing dollar thresholds established for defense appropriations which are currently \$10 million procurement, \$4 million RDT&E, \$5 million O&M and \$10 million military pay.
- Any proposed action which, although below normal dollar thresholds, can reasonably be considered to be an item of special Congressional interest.
- Any proposed action for an activity that has not specifically been authorized.
- Any proposed action for an activity for which authorization has been reduced by Congress.
- Any proposed action involving an activity--including any activity required to be reported to the Intelligence Committees pursuant to Title V of the National Security Act of 1947--the disclosure of which could have significant international political implications.

UNCLASSIFIED

- In addition, except in those instances where funding is denied "without prejudice", if all funding for a project or activity has been denied by the Congress it is not considered proper to submit a reprogramming to fund such project or activity. (U)

2. Please prepare appropriate correspondence to community Program Managers to implement committee instructions. (U)
